Professional Summary

Computer Science Engineering student with hands-on experience in web development and AI-based projects, including a hotel website and face recognition security system. Completed IBM internship and actively involved in RHA, demonstrating leadership and teamwork skills.

Professional Experience

Infomatics · [\(JSE & JEE\)](#)

Internship · [Jul 2025 - Jan 2026](#)

- Worked with HTML, CSS, JavaScript, React, and basic backend concepts using Git/GitHub. Completed 6-month Java (JSE & JEE) training from Infomatics, strengthening OOP and backend fund. Developed projects including a hotel website and an AI-based face recognition security system. amentals. Also completed Deloitte Cyber Security Job Simulation, gaining knowledge of threat analysis and security concepts.

IBM · [web development](#)

Virtual Internship · [Feb 2026 - Mar 2026](#)

- Completed IBM Virtual Internship in Web, Mobile Development & Marketing (Feb–March 2026), gaining hands-on experience in full-stack development

work experience ·

- fresher

Projects

hotel and bar & restaurant

- Developed a responsive hotel and bar & restaurant website using HTML, CSS, and JavaScript with a user-friendly interface. Created a personal portfolio website to showcase skills, projects, and contact information. Built an AI-based face recognition security system for identifying and verifying individuals. Used React for frontend development and integrated basic backend functionality using Flask/Node.js. Focused on building scalable, efficient, and real-world problem-solving application

Education

Skills

Programming Language

Languages: C, Java, JavaScript Frontend: HTML, CSS, React Backend (Basic): Node.js, Flask

Database: DBMS (Basic) Tools & Platforms: Git, GitHub Core Concepts: Data Structures, OOPs, Problem Solving

Achievements

Successfully completed IBM Virtual Internship in Web, Mobile Development & Marketing. Completed Deloitte Cyber Security Job Simulation with practical task experience. Completed 6-month training in Java (JSE & JEE) from Infomatics. Built multiple real-world projects including a hotel website and AI-based face recognition system. Actively involved in RHA, demonstrating leadership and teamwork skills.

Certificates

IBM Virtual Internship – Web, Mobile Development & Marketing · IBM	Feb 2026 - Mar 2026
Java (JSE & JEE) Training Certification · informatics informatics	Jul 2025 - Jan 2026
Cyber Security Job Simulation – Deloitte · deloitte	Jul 2025 - Aug 2025
Volunteer • RHA (Agra) 2024 – Present · RHA	2024 - Present

Position Of Responsibility

Frontend Developer · Web Projects

Designed and developed responsive websites including hotel, restaurant, and portfolio projects using HTML, CSS, JavaScript, and React.	
Volunteer · RHA (AGRA)	2024 - Present
Provided guidance and teaching support to students, managed children activities, and assisted in organizing events while ensuring smooth coordination and discipline.	

Extra-Curricular Activities

Participant • TalentHunt@IET (Coding Club) May 2024 Participated in technical and non-technical events, showcasing problem-solving skills and active involvement in college activities.	
Active Participant • College Technical & Cultural Events 2023 – Present Regularly participated in various events, enhancing teamwork, communication, and coordination skills.	
Participant • AI Orientation Program (IET Agra) 2026 Attended AI-focused orientation program, gaining insights into emerging technologies and real-world applications of artificial intelligence
